SUBJECTS

EDIZIONI MINERVA MEDICA

1. - ALPHABETICAL INDEX OF SUBJECTS

A

Adrenals
A simplified method to study the quantitative uptake of radiocholesterol by adrenals, 17.

Anaesthesiolgy
Use of Althesin in obstetrics, 91.

Angiology
Collateral circulation in acute and chronic obstruction of the arteries as related to various surgical procedures, 141.
Significance of the fibrinogen plasma level in atherosclerotic arteriopathies. Study with an automatic technique, 204.

Angiotensin II-like activity
12 h profile of plasma renin activity and angiotensin II like activity in Cushing's syndrome, 153.

Antigens infertility
Evaluation of infertility due to semen antigenicity and certain techniques adopted for its detection, 191.

Arterial hypertension
The Saralasin test: usefulness in the diagnosis of nephro-vascular hypertension, 141.

B

Bile duct surgery
Bilio-jejuno-duodenal anastomoses, 204.
Papillosphincterotomy in the treatment of lithiasis of the VBP and non-neoplastic stenosis of the ampulla, 204.

Biliary tract diseases
Treatment of cholelithiasis with chenodeoxycholic acid, 45.

Bleeding granulomas
Bleeding granulomas sheltering bronchial sutures, 25.

Bronchial sutures
Bleeding granulomas sheltering bronchial sutures, 25.

C

Cardiology
Clinical and radiological features of aneurysms of the left ventricles, 204.
High dosage of 17-MCAA in the treatment of arrhythmias, 141.
Incidence of valve calcifications in 200 patients with mitral valve disease, 205.
Myocardial necrosis quantitative evaluation by means of serum CK and CK-MB concentration analysis, 45.
Spontaneous rehabilitation of the heart attack victim, 205.

Chronic active hepatitis
Discordance between liver histology and function tests after fulminant hepatitis, 5.

Cicloxilic acid
Effects of cicloxilic acid on the function and structure of the liver in some liver diseases, 69.

Circadian rhythm
Circadian rhythmic aspects of urinary zinc excretion in presumably healthy subjects, 201.

Competence
Keeping PACE toward educo-psychosocial rehabilitation of incarcerated males, 63.

Corticoid topicals
Clinical and histological evaluation of the antipsoriac effect of corticoid-containing drugs for topical application, 29.

Cortisol
Systematic hormonal investigations in reactive hypoglycemia, 157.

Cryptorchidism
Bilateral cryptorchidism: a cause of male infertility?, 197.

Cushing's syndrome
18 h profile of plasma renin activity and angiotensin II like activity in Cushing's syndrome, 153.

D

Dermatology
Histomorphological aspects of experimental contact dermatitis with DNBC in guinea-pigs. Optical microscope observations, 46.
Precipitation assay in herpes simples, 45.
Scabies: An epidemic in South Africa?, 11.

Detection methods
Evaluation of infertility due to semen antigenicity and certain techniques adopted for its detection, 191.

Diabetes
Diabetic neuropathy. Survey and case contribution, 142.
Glucose and insulin in psoriasis: the role of obesity and diabetic genetic history, 167.
HLA-antigen and cell immunity in diabetes mellitus, 142.
Pathogenesis of diabetic retinopathy, 142.
Platelet function and antithrombin III levels in insulin-dependent juvenile diabetes, 141.

Digestive endoscopy
Emergency coloscopy in the diagnosis of enterorrhagia, 206.
Endoscopic papillotomy: Indications and limitations, 92.
Endoscopic retrograde cholangiopancreatography in the study of primary neoplasia of the bile ducts, 91.
Value of endoscopic retrograde cholangiopancreatography in the diagnosis of chronic pancreatitis, 205.

E

Echography
A-scan tracings in the location of parathyroid tumours, 1.

Emergency surgery
Problems arising in the emergency surgical management of bleeding oesophageal varices, 206.

Endocrinology
Clinical study of the use of a false food in association with an anorexis drug for the treatment of exogenous obesity, 92.

ESC number
Effect of thymic humoral factor (Leucotrofina) upon regeneration of haemopoietic and lymphatic tissues of irradiated mice, 57.

Experimental surgery
Choledochal prostheses with freeze-dried and siliconed dura mater, 142.
Influence of thyro-parathyroidectomy on gastroduodenal ulcer induced by corticosteroids in the rat, 46.

59Fe uptake
Effect of thymic humoral factor (Leucotrofina) upon regeneration of haemopoietic and lymphatic tissues of irradiated mice, 57.

F

Flurbiprofen
A double-blind, proctoscopic and clinical comparison of flurbiprofen suppositories and ibuprofen suppositories in osteoarthrosis, 173.
Report on a double-blind, proctoscopic and clinical comparison of flurbiprofen suppositories and indomethacin suppositories, in osteoarthrosis, 181.

G

Gastroenterological diagnostics
Echotomography in the diagnosis of pancreatitis and neoplasia of the pancreas, 46.
Role of echotomography in the diagnosis of acute diseases of the gallbladder, 143.
Tc99m scintigraphy in the diagnosis of Meckel's diverticulum (case contribution), 46.

Gastroenterological surgery
Case of adenomatous polyposis of the stomach combined with familial polyposis of the colon, 143.
Endocrine tumours of the gastro-enteric tract: physiopathology, clinical medicine and therapy, 47.
Moderns approaches to complementary therapy in radical surgery for colorectal cancer, 47.
Modified Thal intervention in the treatment of achalasia of the oesophagus, 143.
Pancreatic ectopia in duodenal site, 47.
Surgical management of cancer of the pancreas, 46.

Gastroenterology
Appraisal of a method for the study of cell kinetics on normal gastric mucosa biopsy fragments, 92.
Correlation between endocrine and exocrine function in chronic pancreatitis, 93.
Middle oesophageal web, 143.
New duodenal probe: evaluation of the recovery of intestinal markers during duodenal probing with secretin-cerulein, 48.
Superior mesenteric artery syndrome. Report of 4 cases and notes on the possibiltiy of treating vascular compression of the duodenum, 47.

Glucagon
Systematic hormonal investigations in reactive hypoglycemia, 157.

Glucose
Systematic hormonal investigations in reactive hypoglycemia, 157.

Growth hormone
Action of the serotoninergic and dopaminergic antagonist methiothepin maelate on serum prolactin and growth hormone levels in man, 65.

Gynaecological oncology
Assessment of cell immunity in precancerous states and in carcinoma of the portio, 93.
Indications and limits of conservative and radical surgery in breast cancer, 93.
Suspect colposcopy pictures and histological findings following directed biopsy in an extensive colposcopic investigation, 93.

H

Haematology
Clinical notes on a case of probably congenital leukaemia, 143.
New indirect haemagglutination tests in the measurement of antitoxoplasma antibodies, 93.
Screening and treatment of clotting factor deficiency in newborns, 206.

HB_SAb
Disappearance after two years of HB_SAg and HB_SAb in multiply transfused thalassemic patients and in their relatives in Sardinia, 7.

HB_SAg

Disappearance after two years of HB_SAg and HB_SAb in multiply transfused thalassemic patients and in their relatives in Sardinia, 7.

Head limb malformations

Heterogeneity of oral-facial-digital anomalies, 127.

Heart surgery

Protection of the ischaemic myocardium in coronary surgery. Personal experience in 360 cases, 144.

Results of heart valve replacement with the Björk-Shiley and Lillehei-Kaster tilting-disec prostheses, 48.

Sympathetic ventriculo-coronary denervation in association with direct revascularization in the treatment of coronary ischaemia, 206.

Value of peripheral skin thermometry in the assessment of the heart stroke volume after radical corrections of congenital cardiopathies in extracorporeal circulation, 144.

Hepatology

Bile lipid pictures in subjects at high lithogenous risk, 94.

BSP clearance and survival after a porto-systemic shunt of choice in 72 cirrhosis of the liver, 206.

Findings and outlook in concentration-reinfusion treatment in the therapy of liver cirrhosis induced ascites, 207.

Intrahepatic cholestasis due to canalicular duct hypoplasia. A case associated with multiple deformities, 144.

Homosexuality

Dysfunction and eufunctions of prison homosexuality, 135.

Hyperparathyroidism

Measurement of parathyroid hormone by radioimmunoassay and its clinical applications, 103.

I

Ibuprofen

A double-blind, proctoscopic and clinical comparison of flurbiprofen suppositories and ibuprofen suppositories in osteoarthrosis, 173.

Immunohematology

Alterations in immune globulin levels in some patients with Cooley's disease, 48.

Immunology

Immunity and neoplasias. Behaviour of E rosette forming lymphocytes in patients with malignant neoplasias, 94.

Immunological changes in diabetes mellitus. A study of lymphocyte populations, 94.

Relationship between immunocomplexes (IC) polymorphonuclear leucocytes (PMN) "in vitro" interaction test and in serum IC detection ($SPC1_q$method), 145.

Indomethacin

Report on a double-blind, proctoscopic and clinical comparison of flurbiprofen suppositories and indomethacin suppositories, in osteoarthrosis, 181.

Infantile cardiosurgery

Relation between erythrocyte resistance and diversified solutions in extracorporeal circulation with haemodilution in children, 94.

Insulin

Systematic hormonal investigation in reactive hypoglycemia, 157.

J

Juvenile hypertension

Blood pressure in children related to some variates, 88.

Blood-pressure measurements in children aged 7-18 years whose parents have essential hypertension, 88.

Distribution of arterial pressure measurements in children and adolescents between 4 an 18 years of age: Influence of the measuring techniques on the results, 86.

Distribution of parameters of cardiovascular risk in youth and evolution over time. Results of two subsequent surveys in Cologne, 88.

Effect of the sodium and potassium of the breast milk on the blood pressure of the newborns and infants, 84.

Elevated blood pressure in childhood: Determinants and prognosis in a prospective open population study (EPOZ), 85.

Epidemiological study of blood pressure in infancy, 84.

Epidemiologic study of arterial blood pressure in 504 junior high school students of a Roman scholastic group, 90.

Evidence of an angiotensinogenic mechanism for generalized hypertension associated with coarctation of the aorta, 86.

Familial aggregation of blood-pressure levels in newly born infants and their mothers, 87.

High systolic blood pressure in newborn infants and its relation with age, sex, weight, glycemia, haematocrit and method of delivery, 90.

Hypertension in school children in Naples. Detection and prevalence, 90.

Juvenile arterial hypertension and the hyperkinetic heart-syndrome: results of therapy with beta-blocking agents, 87.

Juvenile hypertension due to excess of mineralcorticoids other than aldosterone, 83.

Plasma renin activity (PRA)fi renal function and water-electrolytes homeostasis in newborns at term and pre-term, 85.

Prognostic and therapeutic significance of the lack of the interrenal mechanisms of renin control in renovascular hypertension in infancy, 89.

Renal prostaglandins (PG) and blood pressure during the first week of life in man, 83.

Screening data from the International Study on Juvenile Hypertension in the Budapest centre, 85.

Severe hypertension in juvenile patients, 86:

Studies on blood pressures (BP) in school children in Zurich, Switzerland, 84.

L

Lipid metabolism
Metabolic changes induced by a nicotinic acid derivative in patients with obesity grades 1, 2 and 3, 111.

$LD_{50/30}$ values
The effect of thymic humoral factor (Leucotrofina) upon regeneration of haemopoietic and lymphatic tissues of irradiated mice, 57.

Legal medicine
Medicolegal aspects of renal transplantation, 207.

Liver and bile duct surgery
Personal experience with biliodigestive anastomosis, 146.
Recent advances in surgery of the extrahepatic bile ducts, 146.
Traumatic lesions of the liver. Twelve years experience and clinical statistics of 118 cases, 145.
Twenty-four cases of primary tumour of the main bile duct, 145.

Liver diseases
Effect of cicloxilic acid on the function and structure of the liver in some liver diseases, 69.
Physiopathology of the nephropathy in liver cirrhosis: pathogenetical role of ascites and of inferior caval pressure increase, 49.

Liver function tests
Discordance between liver histology and function tests after fulminant hepatitis, 5.

M

Male fertility
Bilateral cryptorchidism: a cause of male infertility?, 197.

Menstrual synchrony
Synchronization of menstruation among intimates and kindreds, 131.

Methiothepin
Action of the serotoninergic and dopaminergic antagonist methiothepin maleate on serum prolactin and Growth Hormone levels in man, 65:

N

Nephrologic diagnostics
X-ray crystallography in the study of urinary lithiasis. Methodological features and clinical results, 146.

Nephrology
Cell-mediated immunity and minimal-change nephrotic syndrome, 146.
Focal sclerosing glomerulopathy: a light microscopy, immunofluorescence and electron microscopy, study and follow-up of 24 patients, 95.
Hepato-renal syndrome: renal function prior and after pharmacological denervation of the kidney during acute portal hypertension, 49.
Left ventricular function (LVF) in 103 patients with chronic renal failure in dyalitic treatment and 1 year follow up of LVP in 67 of the same patients, 50.
NeF behaviour and circulating IC in cryoglobulinemic glomerulonephritis, 146.
Plasma catecholamines levels and chronic hypertension in haemodialysis patients, 50.
T and B lymphocyte in minimal-change nephropathy, 95.

Neuropsychiatry
Neurophysic syndrome in children born of diabetic mothers, 50.

Nicotinic acid derivative
Metabolic changes induced by a nicotinic acid derivative in patients with obesity grades 1, 2 and 3, 111.

O

Obesity
Glucose and insulin in psoriasis: the role of obesity and diabetic genetic history, 167.
Metabolic changes induced by a nicotinic acid derivative in patients with obesity grades 1, 2 and 3, 111.

Obstetric diagnostics
Foetal activity acceleration determination (FAD); a cardiographical method for evaluating foetal status prior to delivery, 147.

Obstetrics
Clinical evaluation of the efficacy of prostaglandin F_{2alfa} in the suppression of lactation (50 cases), 207.

Odontostomatology
Prosthetic rehabilitation by means of force distribution prosthesis. Clinical and statistical evaluation of the results obtained in 79 oral rehabilitations, 147.

18-OH-DOC
12 h profile of plasma renin activity and angiotensin II like activity in Cushing's syndrome, 153.

Oncologic diagnostics
Personal experience with the thermographic study of skeletal metastasis in breast cancer, 95.

Oncology
Current experience with regard to the diagnosis, histoprognostic classification, and treatment of malignant melanoma of the skin, 208.
Immunological typing of patients with carcinoma of the larynx, 147.
Prognostic determinants of primary cutaneous malignant melanoma, 147.
Usefulness of cytostatic chemotherapy in advanced breast tumour: selection of 30 post-menopause cases previously treated with radiation therapy, 207.

Oral facial digital syndrome
The heterogeneity of oral-facial-digital anomalies, 127.

Orchiorrhaphy
Bilateral cryptorchidism: a cause of male infertility , 197.

Orthopaedics
Septic arthritis in infancy and adolescent, 208:
Surgical management of acromion-clavicular dislocation, 208.

Osteoarthrosis
A double-blind, proctoscopic and clinical comparison of flurbiprofen suppositories and ibuprofen suppositories in osteoarthrosis, 173.
Report on a double-blind, proctoscopic and clinical comparison of flurbiprofen suppositories and indomethacin suppositories, in osteoarthrosis, 181.

Otorhinolaryngology
Remarks on horizontal laryngectomy. Critical assessment of 207 cases, 148.

P

PACE
Keeping PACE toward educo-psycho-social rehabilitation of incarcerated males, 63.

Paediatric endocrinology
Infantile diabetes mellitus: metabolic problems and therapeutic prospects, 51.

Paediatric gastroenterology
Evaluation of intraepithelial lymphocytes in the intestinal biopsy during the course of coeliac disease, 208.

Paediatric neurology
Electroclinical pictures of early petit mal epilepsy, 208.

Paediatrics
Alpha-foetoprotein (AFP) patterns from birth to the second year of life in normal children, 209.
Heterogeneity of pituitary reserve of gonadotrophins in children affected by cryptorchidism, 209.
Observations on the validity of a test for screening heterozygotes for phenylketonuria, 209.
Thymic dysplasia with circulating, nonmitogen-responsive T lymphocytes. Post-transfusional, fatal anti-host transplant disease, 209.

Parathyroid hormone
Measurement of parathyroid hormone by radioimmunoassay and its clinical applications, 103.

Parathyroid tumours
A-scan tracings in the location of parathyroid tumours, 1.

Parenteral nutrition
Indications and results of parenteral nutrition in the surgical treatment of neoplastic stenoses of cardias and esophagus, 95.
Total parenteral nutrition and nitrogen metabolism in critical patients, 96.
Total parenteral nutrition in surgery, 148.

Peritoneal dialysis
Factors affecting peritoneal dialysis efficiency, 96.

Phantoms
Survey of tissue substitutes and phantoms in 18 Italian centres, 81.

Pharmacology
Clinical and microbiological trial of Sisomicin, a new aminoglycosidic antibiotic, 210.

Physiopathology
Cardiovascular and respiratory reflex responses due to stimulation of muscular nervous receptors and experimental physical exercise, 96.

Plasma renin activity
18 h profile of plasma renin activity and angiotensin II like activity in Cushing's syndrome, 153.

Pneumology
Changes in acid-base balance associated with acute pulmonary oedema. Intra-erythrocyte findings and comparison with plasma values, 51.
Evaluation of pulmonary hypertension with non-surgical polygraphic techniques, 210.
Part played by fibrobronchoscopy in the diagnosis of lung cancer, 97.

Post-operative therapy
Assessment of the action of three different types of nutrition treatment in protein catabolism of the immedaite postoperative period, 51.
Role of total parenteral feeding in the treatment of postoperative external pancreatic fistula, 51.

Prolactin
Action of the serotoninergic and dopaminergic antagonist methiothepin maelate on serum prolactin and Growth Hormone levels in man, 65.

Psoriasis
Glucose and insulin in psoriasis: the role of obesity and diabetic genetic history, 167.

Psoriasis, treatment
Clinical and histological evaluation of the antipsoriatic effect of corticoid-containing drugs for topical application, 29.

Puericulture
Current views on the treatment of neonatal hyperbilirubinaemia using phototherapy, 97.

R

Radiocholesterol
Simplified method to study the quantitative uptake of radiocholesterol by adrenals, 17.

Radioimmunoassay
Measurement of parathyroid hormone by radioimmunoassay and its clinical applications, 103.

Reactive hypoglycemia
Systematic hormonal investigations in reactive hypoglycemia, 157.

Recovery of haemopoiesis and lymphopoiesis
Effect of thymic humoral factor (Leucotrofina) upon regeneration of haemopoietic and lymphatic tissues of irradiated mice, 57.

Rehabilitation
Keeping PACE toward educo-psycho-social rehabilitation of incarcerated males, 63.

Renal surgery
First experience with extracorporeal renal surgery and autotransplantation, 52.

Renal transplantation
Organisational problems and results in kidney transplantation, 210.
Urodynamic assessment of renal transplant candidates, 210.

Respiratory physiopathology
Haemogasanalytic and phonomechanographic effects of oxygen therapy in cardiopathic and pneumopathic patients and those with cardiorespiratory insufficiency, 52.

Resuscitation
Results with high-dose cortisone management in traumatic shock (preliminary note), 97.

S

Scabies
Scabies: An epidemic in South Africa?, 11.

Self-involvement
Keeping PACE toward educo-psycho-social rehabilitation of incarcerated males, 63.

Semen
Evaluation of infertility due to semen antigenicity and certain techniques adapted for its detection, 191.

Semiquantitative histopathology of psoriasis
Clinical and histological evaluation of the antipsoriatic effect of corticoid-containing drugs for topical application, 29.

Serum glucose
Glucose and insulin in psoriasis: the role of obesity and diabetic genetic history, 167.

Serum insulin
Glucose and insulin in psoriasis: the role of obesity and diabetic genetic history, 167.

Sex behaviour
Dysfunctions and eufunctions of prison homosexuality, 135.

Sorbinicate
Metabolic changes induced by a nicotinic acid derivative in patients with obesity grades 1, 2 and 3, 111.

Sterility
Medical treatment of male sterility, 148.

Surgical techniques
Two cases of portal vein replacement with dacron graft during pancreatectomy due to pancreatic carcinoma, 149.
Use of a new selective stain for highlighting vagal fibres in gastric surgery; experimental study, 149.

T

Testicular volume
Bilateral cryptorchidism: a cause of male infertility?, 197.

Thalassemia
Disappearance after two years of HB_SAg and HB_SAb in multiply transfused thalassemic patients and in their relatives in Sardinia, 7.

Thoracopulmonary surgery
Chest outlet syndromes. Arteriographic pictures, 52.
Factors affecting the prognosis of bronchial carcinoma, 52.

3H-thymidine uptake
Effect of thymic humoral factor (Leucotrofina) upon regeneration of haemopoietic and lymphatic tissues of irradiated mice, 57.

Tissue substitutes
Survey of tissues substitutes and phantoms in 18 Italian centres, 81.

Transplantations
Kidney rupture after transplantation, 53.

U

Urine
Circadian rhythmic aspects of urinary zinc excretion in presumably healthy subjects, 201.

V

Vascular surgery
Late obstruction of aortofemoral prostheses, 53.
Revascularisation of the deep femoral artery in lower limbs arterial insufficiency: clinical features and immediate results, 97.
Role and importance of revascularisation of the deep artery of the thigh in chronic ischaemia of the lower extremities, 98.
Surgical therapy in the course of peripheral acute arterial obliterations, 53.

Z

Zinc
Circadian rhythmic aspects of urinary zinc excretion in presumably healthy subjects, 201.
